OBJECTIVE

To be part of the creative process in bringing a project to life.

SKILLS

I excel at speaking with people, regardless of circumstance or stature.

EXPERIENCE

IT/COMPUTER TECH/BERLIN PUBLIC SCHOOLS

May 2015 - Present

I am one of four people on our team that manages the entire district. I am the point of contact for all staff requests at Berlin High School, as well as the individual that ensures repairs are happening in a timely manner. I also oversee, and train, various student helpers that we bring on for summer or afterschool work. I am the go-to member for giving seminars on professional development.

I personally manage over 1000 devices and maintain timely repairs and minimal downtime for everyone.

I lobbied for the inclusion of a VR lab for the students which I give regular assistance in teaching students to use 3D space to create art or navigate foreign places.

EDUCATION

FULL-STACK DEVELOPMENT BOOTCAMP / MAY 2020

UConn School of Engineering

Currently maintaining a 4.0a

MUSICAL COMPOSITION / DEC 2015

Central Connecticut State University

Graduated Magna Cum Laude

I take education very seriously, and believe that anyone with an open mind, and passion, can be taught any skill. All it takes is the proper encouragement.

VOLUNTEER EXPERIENCE OR LEADERSHIP

Eagle Scout – Led my troop and others in weekly meetings.

VR Coordinator – I assist all students and staff with all VR functions at the high school.

Tenor Section Leader – I give other members of the choir a firm foundation from which to build their sound.

I am here to help others be the best that they can be, while making sure that I am doing everything in my power to uphold my duties.
